"There are many courses dentists take in their life and find that it was lacking what you signed up for. IDEA and Dr. Jordan and John West went above and beyond with the mini residency. I was fearful in attempting my molar endo, now, I feel competent and confident to take them on.

Dr. Heike, you have been an absolute pleasure. My only wish is that we had more days because her and her staff are so lovely. Thank you all for your guidance and the time and effort your team puts to make us feel welcomed. I will be back. "
