

IDEA Alumni Testimonials

Didier Dietschi, D.M.D., Ph.D.

Adhesive Posterior Restorations: Function, Biomechanics and Esthetics in Synergy All What Matters for Long-Term Success with Direct and Indirect Techniques

"Didier has extensive knowledge of composite restorations and bonding protocols. His restorative approach offers a functional, esthetic and cost-effective alternative to ceramics and other full coverage crowns. If you are in the fence considering this course, I recommend it."

Sukhjit Gill, General Practitioner, General Practitioner, Clovis, CA

"Amazing to see dentistry performed at the highest level and learn from someone who was so instrumental in developing techniques and procedures/protocols that are useful today."

Trent Orth, General Practitioner, Kelowna, BC, Canada

This course was inspiring and practical. I definitely want to take other courses of Dr. Didier here. The techniques are efficient, highly esthetic and providing beautiful results."

Irena Starchenko, General Practitioner, Encino, CA

"Didier is amazing! So generous with his knowledge and skills. On top of that, he is a great human being. I am so honored and grateful to participate in 2 of his courses so far. Looking forward to the 3rd one."

Leyli Shirvani, General Practitioner, San Francisco, CA

"I am just glad to be in a place, with a small group, an approachable instructor, kind colleagues and being taken care of. I always learn practical skills and gain relevant knowledge to further improve my craft."

Grisel Acevedo Rivera, General Practitioner, Webster, TX

"Dr. Dietschi simplified complex concepts - like managing polymerization shrinkage and treating cracked tooth syndrome and tied them to clear evidence-based protocols supported by decades of his own clinical experience. His passion for dentistry is truly contagious.

My favorite part was the one-on-one guidance during the hands-on sessions, because of that, I am leaving with more confidence and better results. He renewed my appreciation for how science and simplicity can work hand in hand in everyday dentistry."

Christine Ho, General Practitioner, Fairbanks, AK

"Excellent and friendly staff, lots to learn such enjoyable and life changing experience."

Jethro Cha, General Practitioner, Anchorage, AK

"I had been looking into taking one amazing course that would help me up my composite skills that I could take back to my private practice, and I was recommended IDEA, especially Dr. Dietschi! I am so glad that I listened to and registered for this course.

I really appreciate the wealth of information being presented in such a clear and organized manner and being backed up by years of research, and irreplaceable hands-on experience!

What a wonderful group of individuals, doctors and staff that have made this week and learning experience incredible.

Dr. Heike Kraemer runs a beautiful, efficient center and has wonderful heart! I appreciate this amazing vision that IDEA offers! Highly recommend this center to further your understanding and clinical skills."

Sukhmani Singh, Prosthodontist, Benicia, CA

"This course really helped me see more of my potential, especially as a general practitioner. It was amazing to learn from a true master and to see how well researched the protocols are. It gives confidence to apply these concepts knowing my patients will benefit for decades to come!"

Brett Williams, General Practitioner, Okotoks, AB, Canada

"Perspective changing course! Didier's experience both as a researcher and clinician - helped to remind me how impactful, thoughtful dentistry can be. And with the lectures and hands-on component of the course, he helped us feel that we can be better to achieve that for our patients too!"

Anthony Hua, General Practitioner, Santa Rosa, CA

"I am so glad that I learned how to engage the minimally invasive dental procedures in my dentist career for my patient. Dr. Dietschi was very informative and took care of all our questions and learning. Thank you very much!"

Ji Won Choi, General Practitioner, Fort McMurray, AB, Canada

"Didier is a great instructor and awesome clinician. After taking this course any doubts or fears I had about doing these types of procedures were erased. From the teaching to the facility top notch. Highly recommend!"

Louis Taglia Jr., General Practitioner, Elmwood Park, IL

"Didier is a great speaker and very knowledgeable in restorative dentistry. Very great to learn from one of the leaders in composite resin mastery."

Andrew DeMarco, General Practitioner, Windsor, ON, Canada

"I thoroughly enjoyed the method of instruction and the course structure at IDEA. A very conducive environment for dental education and learning. The amount of information and learning can be quite overwhelming at times, but the path to becoming a better practitioner is not simple. So, thank you IDEA for opening my mind to more of what can be achieved in dentistry. I will be back!"

Brenden Park, General Practitioner, San Jose, CA

"Dr. Dietschi's course was extremely comprehensive. As a practitioner, it gives you confidence knowing there is a better care option for your patients. After completing this course, I feel equipped to provide better adhesive and comprehensive treatment."

Emma D'Souza, General Practitioner, Burlington, ON, Canada

"The research and clinical outcomes were clearly explained. The reasons, pros and cons were explained well. I could ask as many questions as I wanted. I extremely enjoyed the class size. Thank you, IDEA!"

Anita Mathews, General Practitioner, Pleasanton, CA

I have now followed many classes at IDEA. This place is like no other for continuing education. It has built my skills and confidence. I am able to offer predictable high-quality treatment to my patients with the latest, most up to date knowledge. I can accomplish things that distinguish me amongst my peers. Most all, IDEA has increased my joy of practicing by 100%."

Anne-Claire Landry, General Practitioner, Cote Saint-Luc, QC, Canada

"Thank you for bringing dentistry excellence to the US! I was struggling to find answers to my problems, and I appreciated learning from Didier Dietschi who had worked out most of the questions I had. I highly recommend this course to all my dental friends."

Jenny Stevens, Prosthodontist, Honolulu, HI

"Learning from an expert who understands both the clinical and didactic/theoretical perspective is a rare opportunity, unparalleled to me. The course has also allowed me to better understand how to achieve long-term predictable and beautiful aesthetic outcomes with appropriate form and function."

Yvette Tran, General Practitioner, Santa Rosa, CA

"I am very satisfied with the experience. Everyone at IDEA has been very nice and accommodating. Dr. Didier is amazing, very knowledgeable and approachable. I like how I got personal attention from the instructor. Thank you so much!"

Odette Quintanilla, General Practitioner, Santa Rosa, CA

"Exceeded my expectations. Small group learning was key, especially with supportive teams and faculty. Highly recommend at any time of your dental career."

Katherine Eslao, General Practitioner, San Francisco, CA

"Excellent course. This is high quality and engaging CE that will not only excite you, but also transform the way you practice and approach dentistry. "
Mehvish Mirza, General Practitioner, Danville, CA

"Dr. Dietschi is extremely knowledgeable. I would recommend this course to any dentist who is interested in learning new techniques, and knowledge about adhesive direct and indirect restorations."
Viethung Tran, General Practitioner, Winnipeg, MB, Canada

"Dr. Dietschi is an expert in composites, and it is wonderful to learn from him."
Gabriela Garcia-Rojas, General Practitioner, Mill Valley, CA

"If you haven't been to a class taught by Didier Dietschi you are really missing out on a plethora of dental knowledge. If you have a question about materials, methods, or techniques he will definitely know the answer.

Didier is kind and approachable. All dentists, no matter what stage you are at in your career, can benefit from his classes. He is the master!"
Nicole Watson, General Practitioner, Bakersfield, CA

"Incredible course! Amazing presentation with amazing hands-on component. Everything was systematic to achieve great results."
Joonyon Park, General Practitioner, Kanata, ON, Canada

"Training with Didier has been an absolute transformative experience for my career. Didier beautifully blends excellence in adhesive and esthetic dentistry with practicability. This latter aspect comes through from his vast clinical experience and patients as well as long term - decades - of clinical follow up. This is truly Clinical Mastery in Adhesive Esthetic Dentistry."

Steven Schiffenhaus, General Practitioner, Gilbert, AZ

"It is a privilege to learn from the best clinician and incredible mentor Didier Dietschi. Great experience. I know I will be back!"
Kami Chervilov, General Practitioner, Oklahoma City, OK

"High quality CE course."
Junping Bergin, Prosthodontist, Seattle, WA

"This was a very informative and practical course introducing me to Biomimetic Dentistry, covering the essentials from bonding protocol to indicators for direct and indirect restorations. Also, I feel more confident in treatment planning cracked teeth cases! Highly recommend Dr. Didier's course! Thank you!"
Anna Kruszelnicki, General Practitioner, Beausejour, MB, Canada

Interdisciplinary
Dental Education Academy

"Dr. Didier is an excellent teacher, lecturer and clinician! I have learned so much from this course. I am looking forward to implementing these new skills in my practice."

Sandrine Lam, Prosthodontist, San Mateo, CA

"Amazing teacher, amazing course, amazing organization! That is why I keep coming back, it is an amazing journey."

Mouna Hachichou, General Practitioner, Surrey, BC, Canada

"I absolutely love the research backed approach to proven concepts. Absolutely no BS. Fantastic as always!"

Alexander Chukreeff, General Practitioner, San Francisco, CA

"As a clinician focused on biomimetic dentistry, I attended Dr. Didier Dietschi's programs at IDEA to further refine my skills in conservative restorative techniques. I've now completed all three programs, Anterior, Tooth Wear, and Posterior, and each elevated both the precision and predictability of my work.

Dr. Dietschi's evidence-based protocols are grounded in decades of evidence, yet they remain beautifully practical for daily clinical life. His philosophy reinforced my confidence in treating complex esthetic and functional cases conservatively — maximizing preservation without compromising beauty or longevity.

These courses are invaluable for any dentist striving to elevate their clinical excellence. They refine efficiency, strengthen diagnostic and treatment planning skills, and empower clinicians to deliver sophisticated, minimally invasive care with confidence and precision."

Anna Paholiouk, General Practitioner, Rancho Mission Viejo, CA

"I'm proud to say that I have learned a lot from this course. I am able to go back to my office next week and apply what I've learned here and have better patient outcome care. I am also able to share what I've learned with my other colleagues and learners that I associate with. I highly recommend IDEA and the courses that they offer."

Samuel Chiu, Prosthodontist, San Francisco, CA
