### IDEA Alumni Testimonials

José Carlos da Rosa, D.D.S., M.Sc., Ph.D., Luis violin, M.D., Ph.D.

Immediate Dentoalveolar Restoration:  
Immediate Implants for any kind of Compromised Extraction Sockets  
The New Frontier in Modern Implantology

"There were 3 WOW factors in this course:

The 1st WOW is when Dr. da Rosa showed a case which seemed almost impossible to do immediate implant placement and there it is - case achieved.

The 2nd WOW is the long-term follow-up of such outstanding cases, 10 - 20 year follow-ups with amazing results.

And the 3rd WOW factor, these cases are broken down in such simplicity that I can go back next week and apply to my patients.

Thank you for your generosity and kindness in sharing all these cases!"

Samuel Koo, Periodontist, Wellesley Hills, MA

"World class educators, participants, and customer service. IDEA is responsible for catapulting my clinic career towards excellence through its lineup of top educators from around the world. There is no academy like it where you are with like-minded individuals learning from the best while being treated like royalty"

Michael Webster, General Practitioner, Kelowna, BC, Canada

"Another excellent course at IDEA. Great teacher, excellent facility, excellent hands-on.

Another eye opening and practice-changing training."

Alex Katsnelson, Oral Surgeon, Lincolnshire, IL

"I have thoroughly enjoyed and appreciated my experience at IDEA. This has been a breath of fresh air... hospitality, meals, structure... all boxes are checked. After many years, I feel like I have found my new home for dental education and meaningful colleague relationships.

Thank you!"

L. Randy Buntyn, General Practitioner, Gulfport, MS

"It's been incredible. Jose Carlos is showing us things that are definitely outside the box, with truly impressive results. I've been practicing for many years but over the past few days these techniques have really pushed me to think differently. This will absolutely influence my practice moving forward.

The experience here at IDEA has been fantastic; great atmosphere, exceptional education, and hands-on training. If you get the chance to attend, I highly recommend it. I think you'll like it too."

Joseph Kan, Periodontist, Loma Linda, CA

Interdisciplinary  
Dental Education Academy

"In today's climate it is hard to find high level, quality CE and training. IDEA provides both. I highly recommend IDEA."

John Barksdale, General Practitioner, Baton Rouge, LA

"This was one of the most valuable CE courses I have taken and will change the way that I practice. I would highly recommend the learning experience to any surgeon wanting to elevate the skills they have already. The IDEA facilities were excellent, and I look forward to attending more courses."

Audrey McNamara, Prosthodontist, Grand Prairie, TX

"First of all, I love all the IDEA staff :) Seriously!

Secondly, thank you Dr. da Rosa for opening our minds to the possibilities and dedicating your time to teaching us how to do it in ways that young practitioners, like me can apply in our daily practice. His methods are science-based and simplified into repeatable steps that can be perfected the more you do it. So, thank you for the wonderful learning experience. I am your American fan! :)

Teresa Le, General Practitioner, Cudahy, CA

"Another fantastic course!! Great and approachable presenter, and strong rapport between attending colleagues."

Chris Bates, Periodontist, Chermside, Australia

"Another excellent course. IDEA has been consistently the only CE I have done that has an immediate, and direct effect on my practice."

Justin Schlaikjer, Periodontist, St. Louis, MO

"I was advised to take Dr. da Rosa teach his technique at IDEA. I thought the outcomes of his patients are results what I would call unbelievable but in the last few days we have seen it is not unbelievable but a routine in his hands.

The course is well taught, fantastic presentation, fantastic records breaking it down from the biology and the underpinnings of the technique, all the way through to specific clinical hands-on techniques. It is a well-executed course and cannot wait to take this back to my practice."

David Thode, General Practitioner, Victoria, BC, Canada

"As always, an exceptional learning environment with first class educators, clinicians and customer service."

Garry Toor, Oral Surgeon, Mississauga, ON, Canada

"Exceptional course with Dr. da Rosa. Amazing technique to learn with the cases to demonstrate its success."

Joseph Kelly, General Practitioner, Wilmington, DE

THERE IS NO BETTER WAY TO LEARN. **IDEA.**

EXCELLENCE  
THROUGH  
PASSION

Interdisciplinary  
Dental Education Academy

"José Carlos da Rosa tackles some of the most challenging cases in implant dentistry. His steps seem very clear and well explained. Great training, solid, biologic concepts."  
George Morarasu, Periodontist, Ukiah, CA

"I'm an Oral Surgeon, and I have done a lot of bone grafts but in an invasive way. Now, I have another approach with less invasive techniques, saving time and being more effective. Thank you, Dr. da Rosa and IDEA!"  
Quang Phi Tran, Oral Surgeon, Ho Chi Minh City, Viet Nam

"Thank you for providing a great place to continue the journey of learning. Da Rosa course was spectacular!"  
Amir Ghadiri, General Practitioner, San Jose, CA

"High quality learning with a clear purpose and no-nonsense approach! Thank you!"  
Alexandra Bialy, Oral Surgeon, Schaumburg, IL

"I had an awesome experience!!!"  
Jay Lopez, General Practitioner, Tucson, AZ

"Great course by a tremendous speaker, organized by a first-class education platform."  
Don Hui, Oral Surgeon, Woodbridge, ON, Canada

"The da Rosa course exceeded my expectations. Excellent course! Thank you! "  
Timothy Wu, Periodontist, Mountain View, CA

"Superb course, very well organized! A wealth of didactic information and a fantastic hands-on component. Thank you, Dr. da Rosa!"  
Mouna Hachichou, General Practitioner, Surrey, BC, Canada

"Thank you so much!"  
Nicole Olivares, Periodontist, San Francisco, CA

"Groundbreaking concept presented by an excellent clinician and instructor. Such a privilege after reading his IDR book to directly been trained by Dr. da Rosa. Having Dr. Kan learning with us was an amazing bonus experience and a testament to the quality of professors at IDEA. Thank you!"  
Alexander Chukreeff, General Practitioner, San Francisco, CA
